

# Gang Starr Lyrics

## "Street Ministry"

Presenting you with alternative music  
'Cause, yo, the struggle is tough, and we must learn to live through it  
Pleasure and pain, pain and pleasure  
We gotta maintain a balance to obtain the treasure  
Not really preaching or teaching but just reaching  
Out to a brother or sister who is keeping  
The faith and trying hard to get straight  
The time is crucial so I think we must congregate  
Let's have a meeting of the minds  
Before we all fall and get left far behind  
Finding a way is important  
Map out a plan, take a stand, you can work it  
The future's all in your hands and  
So of yourself, yea, you should be demanding  
We're all responsible for whatever outcome  
That's why I speak over beats for my income  
Knowledge is key and if you ask what it is, G  
It's just a form of my style of street ministry  
Street ministry...
